The figure is a timing diagram with a black background and white grid lines. A vertical yellow line marks a specific time point. The signal is represented by a horizontal line that transitions from a high state to a low state at the marked time. The time axis is labeled at the bottom with values in picoseconds (ps).

Now 10000000000 ps

Cursor 1 2316316900 ps

2316300000 ps 2316400000 ps 2316316900 ps
